

Procedure for obtaining NOC for Blanket approval for movement or shifting of CG

If the STP / EHTP unit is operating at multiple locations or having multiple license of the same entity, they propose to move the imported / indigenously procured CG very frequently on temporary basis between multiple locations or multiple units for better utilization of CG/ resources. In such case they approach STP for blanket permission for such movement to avoid any delay in executing the projects. The Blanket approval will be given for the period of one year which can be extendable on case to case basis.

For obtaining the NOC for movement of CG from STPI, the STP member unit should have

- Valid STP status
- Valid Legal Agreement
- Valid Private Bonded Ware House Licence (PBWHL) of both the locations between which the movement is taking place.

Process of obtaining NOC for Blanket approval for temporary movement or shifting of CG

Request letter seeking blanket permission giving locations address and floors occupied for STP operation

Copy of latest amended bonded warehouse license should be enclosed to covering letter.

Period of blanket approval

In case of applying for extension of the existing blanket approval, copy of the PWHL and the copy of the existing blanket approval is required to be enclosed.

In case of inclusion of additional location in the existing blanket approval, copy of the amended PWHL with the current location being updated in the licence, copy of the existing blanket approval is required to be enclosed.

After obtaining NOC for Blanket approval for movement of CG frequently, the unit should approach customs for shipping the CG and also for updation in the bond register and attestation of the same by customs authorities.
